

Definition of Done document – WatchMe

Every story **MUST** do the following before being marked as “finished”:

- Meet the requirements specified in the story title and description, i.e. include functional and runnable code
- Been tested manually in the Android emulator
- Include relevant tests, if applicable
- Pass the complete test suite
- Include relevant documentation, if applicable

Every story **SHOULD** do the following before being marked as “finished”:

- Include code that adhere to the Sun Java guidelines and conventions
- Include code that is effectively written with the app performance in mind

Notes

- A completed user story that results in an unexpected bug **in another feature** should be considered done. However, a new bug story should be filed.
